## TSPLOST UPDATE

Mr. Goosby reported that the TSPLOST referendum did not pass in the Southwest Georgia region, and the referendum will not be considered again due to poll results. It was noted that only three regions throughout the entire state passed the legislation. Mr. Goosby thanked everyone involved with setting up the project lists, and those that helped get the facts out to citizens so that they could make an informed decision. He commented that although their efforts fell short, hopefully they will be able to find other ways to generate the revenue needed for a lot of the transportation related projects in the Southwest Georgia region.

## TRANSIT REPORT

Ms. Gresham reported that the Transit Department held several public meetings last month to introduce route proposals to the community. She noted that all routes are currently being evaluated to determine additional ways to operate more efficiently. In addition, extensive research and a lot of public outreach are being conducted to improve services for the local community. Transit is also reviewing the Meredyth Drive area to determine whether a route needs to be added to that section of the city. Ms. Teter asked if there is still a dedicated route for Walmart's Cordele Road location. Ms. Gresham replied that there is still a route for that area, but it is not a dedicated route.

## VICE CHAIRPERSON ELECTION

Mr. Maples made a motion to nominate Mr. Alexander as the Vice Chairperson of the Technical Coordinating Committee. Ms. Aehle seconded the motion, and the nomination was unanimously approved with the following votes:

Yvette Aehle	yes	Jennifer Newton	yes
Bob Alexander	abstained	John Proctor	yes
Bill Bradley	absent	Orlando Rambo	absent
Ken Breedlove	yes	Phil Roberson	absent
Randy Casagrande	yes	Hubert Smigelski	absent
Don Cheek	yes	Bob Takash	yes
Larry Cook	absent	Mary Teter	yes
Dwain Cosby	absent	Brent Thomas	yes
Gerald Goosby	yes	Lesa Walker	absent
Bruce Maples	yes		

## **EAST DOUBLEGATE STUDY UPDATE**

Vamshi Mudumba and Dustin O'Quinn, LAI Engineering, were present to review the results of the East Doublegate/Weymouth Drive Traffic Study. Mr. Mudumba used a PowerPoint presentation (on file) to discuss the reason for the investigation, the engineering study process, conclusions, and recommendations. Speed studies, traffic counts, crash data analysis, and findings were also discussed during the presentation. Excessive speeding and significant deer related crashes were identified in the study, but the study did not identify any significant commercial cut through traffic. Based on the traffic patterns and circulation, LAI Engineering concluded that East Doublegate Drive and Weymouth Drive should remain as an urban collector street. LAI Engineering made the following recommendations: increase enforcement, install temporary speed trailers, add deer crossing signs, and provide LED radar speed sign displays.

Dr. Gillespie commented on behalf of citizens that live in the area, and noted that most of the residents sold their homes because of excessive speeding in the neighborhood. He stated that residents are still concerned about the safety of their children, and getting in and out of their driveways. Dr. Gillespie pointed out that the reason residents are selling their homes is a major factor that was not mentioned in the study. He contends that this is a psychological component that needs to be considered through interviews, etc. Mr. O'Quinn replied that it is not their position to make assumptions because their studies are based on facts and things that are quantifiable.

## **DISCUSSION**

Mr. Cox introduced Bryan Walker as the new staff member in GDOT's Planning Department. Mr. Walker will replace Krystal Harris, and attend the TCC meetings moving forward.

Dr. Gillespie presented pictures of a safety hazard that he reported several weeks ago, and he noted that the issue has not been addressed yet. He stated that there needs to be a system in place to report simple safety hazards, and have them addressed immediately. He feels that members should not have to go through the lengthy process of reporting them to committees.

## **ADJOURNMENT**

There being no further discussion, the meeting was adjourned at 9:37 a.m.
