

SR 520 BU @ FLINT RIVER IN ALBANY PROJECT DESCRIPTION: Bridge - This project, with an approximate total length of 0.22 miles, will replace the existing bridge on SR 520BU/US 82BU over the Flint River in Albany, Georgia with a new bridge consisting of 4 x 12ft lanes, 2ft gutters, and a 5.5ft sidewalk on the north side of the bridge and 12.0ft barrier separated, shared use path on the south side of the bridge. The existing roadway will be detoured to construct the proposed bridge in the same location as the existing bridge. The existing westbound right turn lane and left turn lane will be lengthened to provide a longer taper and queue length.						P.I.#: 0013992
